KIDNAP - ROB OIL TANK DRIVER

Harry Schmuhl Former New Lenox Man Kidnapped and Abandoned on Lonely Road

Harry Schmuhl, aged 28 years, son of Mr. and Mrs. Wm. C. Schmuhl of Mokena and a former resident of New Lenox township, mysteriously disappeared at Joliet on Wednesday afternoon while out collecting for the Indian-Oil Co., by whom he was employed as an oil truck chauffeur and collector.

Mr. Schmuhl had made deliveries from his oil tank truck during the day and had forgotten to leave some oil at the H. H. McCowan place on Rowell Ave. Late in the afternoon he took his Ford coupe and started out making collections and also took the oil to the McCowan place where he was last seen.

Mr. Schmuhl was always at his home by six o'clock and when he failed to come his wife became worried and as the hours went on to mid night and he still was not home she grew frantically alarmed and notified his parents and other relatives. Early Thursday morning the sheriff's office at Joliet was notified and deputies were put on the case. The oil company officials were inclined to fear that he met with foul play while out collecting.

About 7 o'clock Thursday night Mrs. Harry Schmuhl was overjoyed to see her husband drive in the yard with his Ford coupe. Soon as he got in the house Mr. Schmuhl had a harrowing story to tell his nearly distracted wife.

Mr. Schmuhl said that shortly after he left the McCowan place on Rowell avenue he drove under a railroad viaduct when a man waved to him to stop which he did. As the man came up to the coupe Mr. Schmuhl opened the door to see what the man wanted. He asked the way to Collins street and suddenly poked a gun in Mr. Schmuhl's side ordered him to move over and got in the seat with him and commanded him to drive wherever he wanted him to. The lone bandit ordered Mr. Schmuhl to drive out on the Lincoln highway. Mr. Schmuhl drove by his brother Albert's farm east of New Lenox and saw his brother driving the cows but could not get a warning to him of his plight. Upon reaching Chicago Heights Mr. Schmuhl had to keep on driving until they saw a man herding cows alongside the road. The bandit ordered Mr. Schmuhl to stop. The supposed cow herder turned out to be the bandit's partner. He got in the car and took the wheel and drove until late in the night when the car was finally stopped on a lonely road the bandits robbed Mr. Schmuhl of \$42 following which they tied his hands behind him, doped him and left him in the car while they disappeared in the night. Mr. Schmuhl struggled all night to free himself and when morning at last dawned he finally managed to get free of his bonds and started on the road to find out where he was as the country was strange to him. He found himself near the Ohio state line. After driving all day he reached home Thursday night. He was fortunate to have his car left him so he could get back.

No autoist should stop for any one at any time whether it appears to be a case of distress or not for the highways are infested with so many bandits that it is dangerous to stop for anyone by day or night.

Baby Welfare Clinic Coming to Orland

The Baby Welfare Clinic of Palos Park and Orland will be held at the Orland High School Tuesday June 22nd from 1:00 to 3:30 p. m., daylight saving time. All the mothers are invited to bring their babies. Remember the place and the date.

Mrs. Wm. Becker Found Dead at Home of Brother

Mrs. Charlotte Becker well known former resident of Mokena, was found dead in bed at the home of her brother Fred Marti in Frankfort Saturday morning. She had been keeping house for her brother since his wife died a few weeks ago. Mrs. Becker had been in apparent good health and had not complained of feeling ill. On Friday she had done quite a good deal of house cleaning and retired about 8:30 o'clock. When she failed to appear Saturday morning members of the family went to her bedroom and found her dead, the body being cold, which would indicate that she had been dead for hours. It is thought a stroke was the cause of death.

Mrs. Becker nee Charlotte Marti was born in Frankfort township on Feb. 21, 1856. She was christened and confirmed by the Rev. Meyer pastor of the St. John Evangelical church at Mokena.

In 1877 she was united in marriage with William Becker by the Rev. C. Schaub of the St. John church at Mokena. To this union two daughters were born who survive. For a while Mr. and Mrs. Becker resided in Joliet and later returned to Mokena where they resided up to the time of their deaths. Mr. Becker passing away June 23, 1907.

Mrs. Becker was a member of St. John's Evangelical church of Mokena and also a member of the Ladies Aid Society of this church for many years. She was a hard worker. She made a host of friends.

Funeral services were held from the Fred Marti home in Frankfort at 1:30 o'clock Monday afternoon, concluding at the St. John Evangelical church, Mokena, Rev. W. J. Cramer pastor of this church and Rev. G. Gerhold, pastor of the St. Peter's Evangelical of Frankfort officiating. Mrs. Mable Mall and Miss Freida Zumstein sang a number of beautiful selections. The floral tributes were profuse and very beautiful. The large edifice was crowded to capacity by a great crowd of mourners who were life long friends or neighbors in many instances. Burial took place in St. John cemetery south of Mokena.

The deceased is survived by two daughters, Mrs. John Ruthenbeck and Miss Francis Becker of Troy, four grand children, Mrs. John Kurz, Walter, Francis and John Ruthenbeck of Troy, one great grand child, one sister, Mrs. John Minger of Frankfort and four brothers Albert, Fred, Frank and John Marti and a host of other relatives and friends.

New Lenox Boom Peters Out

New Lenox has been on the verge of a big real estate boom for several months but the boom has failed to materialize it is said.

A Chicago capitalist had options on 2,000 acres of land in New Lenox township which it had been planned for sub-divisions. The options on the land expired the first of the month and nothing has been done since. Some New York capitalists had options on Marley land but the bottom dropped out of the deal.

Only one tract of land has been

New Lenox Ghost Proves A Fraud

A real honest-to-goodness ghost story agitated the citizens of New Lenox last week and culminated in a very thrilling climax last Saturday night when over 200 persons congregated to capture the ghost but the supposed apparition turned out to be a big fraud and failed to appear.

Last Tuesday Mrs. Sawyer residing next door to the Kinney Hilton place, formerly the G.E. Hilton place, claimed she saw a red light flash in one of the rooms on the west side of the Hilton home which had been closed up for a few weeks while Mr. and Mrs. Hilton are away visiting on a farm near Dixon, Ill.

The red light appeared for several nights and the story of the ghostly light soon sent shivers up the spines of the more timid folks while the braver ones ventured forth to capture the ghost dead or alive. Mrs. Hilton was notified of the strange light and hurried home. Together with her sister, Mrs. Moore, she remained in the house Friday night, but both claim not to have seen or heard anything uncanny about the place. Saturday night however a crowd of over 200 persons surrounded the place, waiting for the light to appear but they waited in vain. Some one in the crowd fired several revolver shots in the air which caused quite a stir among the crowd who at first thought the ghost had been apprehended. After waiting for some time to see the red light flashes which failed to come, the crowd disbanded and went home. Mrs. Hilton and Mrs. Moore were both very indignant over the affair. Mrs. Hilton was the only one affected by the supposedly ghostly visitor at her home as she had to spend \$10 carfare coming from and going back to Dixon.

Marriages of Two Goodings Grove Girls Announced

Mr. and Mrs. Peter J. Reiter of Goodings Grove announce the marriage of their daughter, Alfreda H. Reiter to George Geuther, son of Mr. and Mrs. Henry Geuther of Frankfort. The marriage took place in Kankakee, Ill., January 8th, 1926. They are residing on the farm of the groom's parents.

Mr. and Mrs. Peter J. Reiter of Goodings Grove also announce the marriage of their daughter, Ethel M. Reiter to Arthur Eisenbrandt, son of Mr. Henry Eisenbrandt. The marriage took place in Crown Point, Indiana on October 28, 1925. Mrs. Eisenbrandt has been teaching school at District 126 on Maple Road for the past two years. Mr. Eisenbrandt is engaged in business with his brother, doing plumbing and electrical work. They will reside in Frankfort.

Fire Siren Installed By Mokena Firemen

Some time ago the Mokena Vol. Fire Department purchased a fire siren which has been installed this week by the Public Service Co., on the second beam of the village water tower. It is electrically operated and when in action can be heard for miles around. This is a big improvement over the old way of giving a fire alarm by yelling Fire! Much credit is due to the Mokena Vol. Fire Dept. for this important addition to the fire fighting apparatus.

sold outright it is reported, this being the old Allen Francis farm. It is understood that part of this land has been laid out in lots which have been sold along Maple Street.

Will County Wants Super Highway

Whether Will County will connect up with the super Southwest Highway of Cook County remains with the Will County Board of Supervisors.

Senator R.J. Barr, J.R. Blackhall and others vitally interested in more concrete roads for Will County have arranged a dinner at the Joliet Chamber of Commerce June 14th at which the Will County members will be guests and at which time plans will be discussed for floating a hard road bond issue with which to build additional concrete roads in Will County.

If the bond issue carries a committee will be appointed to designate what roads are to be built. Maple street road is to be one of the roads to be concreted to connect up with the Southwest highway at the Cook and Will County line and thence run into Joliet, thus giving Joliet a direct line to Chicago.

Another road to be designated will be the Wolf road which would mean a concrete road going south thru Mokena to the Lincoln Highway and thence south in a direct line to Kankakee.

All these highways will not come under the state bond issue but will have to be built by the county and after completion will be taken over by the state as State Aid Roads and part of the construction cost will be refunded by the state to the county.

Wm. Lankenau chairman of the county board has expressed himself as in favor of the proposed roads and it is hoped that the county board will pass a resolution to get the matter on the fall election ballot. The construction of the proposed roads would be a big boost for Will County and would greatly increase property values.

Gas to be Piped to New Lenox Within Next Three Weeks

New Lenox is all set waiting for the gas mains to be laid in the village. The Western United Gas and Electric Co., has a digging machine now near the Harriet Francis farm and is busy laying the gas mains as fast as the trenches are dug. Mr. Urch, local representative at New Lenox has been advised by the superintendent of the gas company that they fully expect to have the mains laid and the gas turned on in New Lenox within the next three weeks. The gas headquarters in the Grange Hall have been kept busy the past few weeks filling orders for gas stoves of which over 60 have been sold.

Rumor has it, that a movement is also on foot to have the village of New Lenox incorporated with a board of trustees and mayor. Still another rumor current is that a number of people have been agitating the formation of a local bank.

New Lenox has had a rapid growth within the past three years and if this development continues there is no doubt but what these rumors will become a reality.

New Lenox All Set for Chautauqua

The Mutual Morgan Chautauqua opens at New Lenox June 15th and will hold afternoon and evening programs up to and including June 18. The chautauqua will be held in the Elysium dance hall. A very excellent program will be given at each session. The complete four days programs and the ticket prices will be found in the chautauqua adv. on the back page of this issue. Be sure and clip these programs as they will be handy and above all be sure and come to one or more of these worth while programs. Be sure and tell your friends and get them to come also.

Oak Lawn P. O. Goes In Third Class July First

The Oak Lawn post office has shown a wonderful increase in business under the management of Mrs. Joseph Ryan. In fact, the business has shown such a good increase that the Postal Department has notified Mrs. Ryan that beginning with July First, the Oak Lawn post office which has been in the fourth class, will be placed in third class. This means that the Postal Department will give the postmaster a straight salary, pay for clerk hire, rent, heat and light. This surely is a big compliment to the efficient service of the new postmaster and a credit to Oak Lawn.

Story of the North

BAREE, Son of Kazan

By James Oliver Curwood

Not so much a sequel as a successor, standing on its own merits, to Mr. Curwood's famous dog classic, "Kazan." All those who followed with breathless interest the adventurous career of Kazan in the Canadian wilderness will not be disappointed in Baree.

Here is a dog story which has all the elements of human interest. The human participants, the lovely Nepeese, a French Indian girl, Pierrot, a trapper, the sinister Bush McTaggart, Carvel, an adventurer and others, in whose lives Baree played such a thrilling part, fit to perfection a stirring narrative of wild places.

Read It as a Serial in THE NEWS-BULLETIN

Lightning Cripples The News-Bulletin

Friday was an off day in the News-Bulletin office when lightning put the Public Service power line out of service at Mokena which prevented publication of the News-Bulletin as there was no electricity to run our linotype and press.

ST. JOHN TO HAVE MOVIES
The St. John Evangelical church at Mokena is making a real up to date move in providing wholesome entertainment at home by way of moving picture shows of which the first of its kind will be shown in the church parlors next Monday evening at 7:45 o'clock standard time when "The Fall of Jerusalem" will be shown also a two reel comedy. Musical and vocal numbers will also be given. Everyone is cordially invited.

MOKENA MAY GET CONCRETE STREETS
The city dads of Mokena are still working on the proposition of concreting the side streets of the village. Attorney H. Rehn of Joliet is engaged in drawing up the legal side of the project. An ordinance must first be passed by the village council creating a local Board of Improvements which will be empowered to act in getting the concrete roads built and collecting special assessments to pay for the construction of same. If concrete road are built it is to be hoped the ones back of it will not make a mess of things as was done a few years ago when the Front street was given an asphalt coating it has proved to be a fizzle.

PHONE SERVICE BAD BETWEEN MOKENA, ORLAND AND TINLEY
Telephone service between Mokena, Orland and Tinley Park is more than wretched. Subscribers between these points are hardly able to hear a word over these lines. This wretched service has been reported to the telephone company time and again, but nothing has been done about remedying the trouble, yet the telephone company expects subscribers to pay for this kind of service. One might as well try to talk to the north pole as to try and get a message across these lines. A message going hundreds of miles can be more plainly heard than one going over these lines only a few miles. It is hoped that the telephone company will give its patrons in these exchanges the services they are entitled to.

PART DOG, PART WOLF

This stirring story of the Canadian wilderness is not so much a sequel as it is a successor to James Oliver Curwood's dog classic, "Kazan." And it stands on its own merits. It is a dog story, but it has all human elements that make it good reading—love, adventure and fighting. There is the lovely French-Indian girl, Nepeese; Pierrot, the trapper; the sinister Bush McTaggart; Carvel, the adventurer. And in their lives Baree plays a thrilling part—a major role. Part dog and part wolf, Baree is dog when it comes to serving his friends and wolf when he wreaks vengeance on his enemies. Baree's intelligence is almost human and in his courage there is no fault. In the beginning Baree is as wild as any other wild thing of the Silent Places. But he comes in touch with civilization through his love for the lovely Nepeese and through his hatred for the villain factor, McTaggart, through his loyalty to the lovable adventurer, Carvel. And it is Baree who brings together Carvel and Nepeese.

Chapter I

To Baree, for many days after he was born, the world was a vast gloomy cavern.

During these first days of his life his home was in the heart of a great windfall where Gray Wolf, his blind mother, had found a safe nest for his babyhood, and to which Kazan, her mate, came only now and then, his eyes gleaming like strange balls of greenish fire in the darkness. It was Kazan's eyes that gave to Baree his first impression of something existing away from his mother's side, and they brought to him also his discovery of vision. He could feel, he could smell, he could hear—but in that black pit under the fallen timber he had never seen until the eyes came. At first they frightened him; then they puzzled him, and his fear changed to an immense curiosity. He would be looking straight at them, when all at once they would disappear. This was when Kazan turned his head. And then they would flash back at him again out of the darkness with such startling suddenness that Baree would involuntarily shrink closer to his mother, who always trembled and shivered in a strange sort of way when Kazan came in.

Baree, of course, would never know their story. He would never know that Gray Wolf, his mother, was a full-blooded wolf, and that Kazan, his father, was a dog. In his nature was already beginning its wonderful work, but it would never go beyond certain limitations. It would tell him, in time, that his beautiful wolf-mother was blind, but he would never know of that terrible battle between Gray Wolf and the lynx in which his mother's sight had been destroyed. Nature could tell him nothing of Kazan's merciless vengeance, of the wonderful years of their matehood, of their loyalty, their strange adventures in the great Canadian wilderness—it could make him only a son of Kazan.

And then came that wonderful day when the greenish balls of fire that were Kazan's eyes came nearer and nearer, a little at a time, and very cautiously. Heretofore Gray Wolf had warned him back. To be alone was the first law of her wild breed during mothering-time. A low snarl from her throat, and Kazan had always stopped. But on this day the snarl did not come. In Gray Wolf's throat it died away in a low, whimpering sound. A note of loneliness, of gladness, of a great yearning. "It is all right now," she was saying to Kazan; and Kazan—pausing for a moment to make sure—replied with an answering note deep in his throat.

Still slowly, as if not quite sure of what he would find, Kazan came to them, and Baree snuggled closer to his mother. He heard Kazan as he dropped down heavily on his belly close to Gray Wolf. He was unafraid—and mightily curious. And Kazan, too, was curious. He sniffed. In the gloom his ears were alert. After a little Baree began to move. An inch at a time he dragged himself away from Gray Wolf's side. Every muscle in her little body tensed. Again her wolf blood was warning her. There was danger for Baree. Her lips drew back, baring her fangs. Her throat trembled, but the note in it never came. Out of the darkness two yards away came a soft, purr-like whine, and the caressing sound of Kazan's tongue.

Baree had felt the thrill of his first great adventure. He had discovered his father.

This all happened in the third week of Baree's life. He was just eighteen days old when Gray Wolf allowed Kazan to make the acquaintance of his son. If it had not been for Gray Wolf's blindness and the memory of that day on the Sun rock when the lynx had destroyed her eyes, she would have given birth to Baree in the open and his legs would have been quite strong. He would have known the sun and the moon and the stars; he would have realized what the thunder meant, and would

have seen the lightning flashing in the sky. But as it was, there had been nothing for him to do in that black cavern under the windfall but stumble about a little in the darkness, and lick with his tiny red tongue the raw bones that were strewn about them. Many times he had been left alone. He had heard his mother come and go, and nearly always it had been in response to a yelp from Kazan that came to them like a distant echo. He had never felt a very strong desire to follow until this day when Kazan's big, cool tongue caressed his face. In those wonderful seconds nature was at work. His instinct was not quite born until then. And when Kazan went away, leaving them alone in darkness, Baree whimpered for him to come back, just as he had cried for his mother when now and then she had left him in response to her mate's call.

The sun was straight above the forest when, an hour or two after Kazan's visit, Gray Wolf slipped away. Between Baree's nest and the top of the windfall were forty feet of jammed and broken timber through which not a ray of light could break. This black-

Everywhere He Looked He Could See Strange Things.

ness did not frighten him, for he had yet to learn the meaning of light. Day, and not night, was to fill him with his first great terror. So quite fearlessly, he began to follow. If Gray Wolf heard him, she paid no attention to his call, and the scrape of her claws on the dead timber died away swiftly. This time Baree did not stop at the eight-inch log which had always shut in his world in that particular direction. He clambered to the top of it and rolled over on the other side. Beyond this was vast adventure, and he plunged into it courageously.

It took him a long time to make the first twenty yards. Then he came to a log worn smooth by the feet of Gray Wolf and Kazan, and, stopping every few feet to send out a whimpering call for his mother, he made his way farther and farther along it. As he went, there grew slowly a curious change in this world of his. He had known nothing but blackness. And now this blackness seemed breaking itself up into strange shapes and shadows. Once he caught the flash of a fiery streak above him—a gleam of sunshine—and it startled him so that he flattened himself down upon the log and did not move for half a minute. Then he went on. An ermine squeaked under him. He heard the swift rustling of a squirrel's feet, and a curious whut-whut-whut that was not at all like any sound his mother had ever made. He was off the trail.

The log was no longer smooth, and it was leading him upward higher and higher into the tangle of the windfall, and was growing narrower every foot he progressed. He whined. His soft little nose sought vainly for the warm scent of his mother. The end came

suddenly when he lost his balance and fell. He let out a piercing cry of terror as he felt himself slipping, and then plunged downward. He must have been high up in the windfall, for to Baree it was a tremendous fall. His soft little body thumped from log to log as he shot this way and that, and when at last he stopped, there was scarcely a breath left in him. But he stood up quickly on his four trembling legs—and blinked.

A new terror held Baree rooted there. In an instant the whole world had changed. It was a flood of sunlight. Everywhere he looked he could see strange things. But it was the sun that frightened him most. It was his first impression of fire, and it made his eyes smart. He would have slunk back into the friendly gloom of the windfall, but at this moment Gray Wolf came around the end of a great log, followed by Kazan. She muzzled Baree joyously, and Kazan in a most doglike fashion wagged his tail. This mark of the dog was to be a part of Baree. Half wolf, he would always wag his tail. He tried to wag it now. Perhaps Kazan saw the effort, for he emitted a muffled yelp of approbation as he sat back on his haunches.

Or he might have been saying to Gray Wolf:

"Well, we've got the little rascal out of that windfall at last haven't we?"

For Baree it had been a great day. He had discovered his father—and the world.

And it was a wonderful world—a world of vast silence, empty of everything but the creatures of the wild. The nearest Hudson's Bay post was a hundred miles away, and the first town of civilization was a straight three hundred to the south. Two years before, Tusoo, the Cree trapper, had called this his domain. It had come down to him, as was the law of the forest, through generations of forefathers; but Tusoo had been the last of his worn-out family; he had died of smallpox, and his wife and his children had died with him. Since then no human foot had taken up his trails. The lynx had multiplied. The moose and caribou had gone unhunted by man. The beaver had built their homes undisturbed. The tracks of the black bear were as thick as the tracks of the deer farther south. And where once the deadfalls and poison-baits of Tusoo had kept the wolves thinned down, there was no longer a menace for these mohekuks of the wilderness.

Following the sun of this first wonderful day came the moon and the stars of Baree's first real night. It was a splendid night, and with it a full red moon sailed up over the forests, flooding the earth with a new kind of light, softer and more beautiful to Baree. The wolf was strong in him, and he was restless. He had slept that day in the warmth of the sun, but he could not sleep in this glow of the moon. He nosed uneasily about Gray Wolf, who lay flat on her belly, her beautiful head alert, listening yearningly to the night sounds, and for the tonguing of Kazan, who had gone like a shadow to the hunt.

Half a dozen times, as Baree wandered about near the windfall, he heard a soft whirr over his head, and once or twice he saw gray shadows floating swiftly through the air. They were the big northern owls swooping down to investigate him, and if he had been a rabbit instead of a wolf-dog whelp, his first night under the moon and stars would have been his last; for unlike Wapoos, the rabbit, he was not cautious. Gray Wolf did not watch him closely. Instinct told her that in these forests there was no great danger for Baree except at the hands of man. In his veins ran the blood of the wolf. He was a hunter of all other wild creatures, but no other creature, either winged or fanged, hunted him.

What an appealing little wild creature is this Baree—part dog, part wolf!

(TO BE CONTINUED.)

Dr. Johnson Famous for Sharp Retorts

Dr. Samuel Johnson used a bludgeon rather than a rapier in his repartee, as some anecdotes about him by Charles Hopkins Clark in the North American Review show. On one occasion, on a Sunday, a pompous acquaintance, whom he did not like, came up to him with, "Doctor Johnson, we have had an excellent sermon today." "That may be so," said the doctor, "but it is impossible that you should know it."

After a heated argument, which, by the way, was the kind he said he enjoyed, he finished his opponent with, "If I have said anything you understand, I beg the pardon of the rest of the company."

Mr. Cholmondeley stopped the carriage in which Johnson was riding and attempted to speak to him, but got no attention. Someone said, "Here is Mr. Cholmondeley." "What if it is?" said Johnson, and went on reading a book.

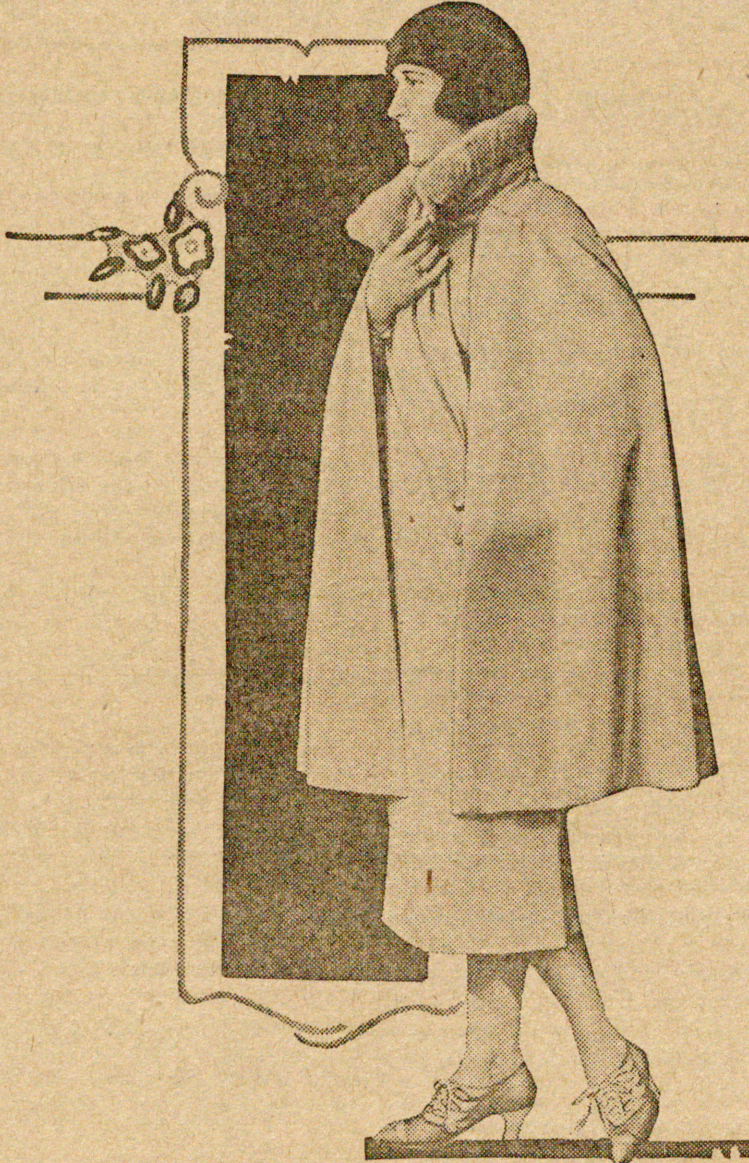

One of the Mysteries

Why do so many strangers think the real sights of a city those that regular residents care least to see? Detroit News.

WRAPS HAVE FLOWING LINES; PARIS SENDS SPORTS CLOTHES

THE current of the styles in outer garments flows toward graceful lines—partly influenced by the success of the cape. This adaptable wrap began its wayward, but charming, career in the smart winter resorts and caused even coats to follow its alluring ways—hence the fad for wearing coats flung about the shoulders with the sleeves hanging loose. Then the cape-coat, combining grace and comfort, began to grow important and now the latest word from stylists tells of cape-coats and dolmans that

old summer time comes, they seem inclined to get into sports clothes, morning, noon and night, and summer brings along so many types of these that they are well dressed for almost anything the day may bring. Comparatively few sports clothes are designed for actual sports wear—most of them seem destined for the gallery and for pastimes not at all strenuous. For instance, here are two rather dainty outfits which Paris sends over labeled "Robes de sport"—they might be as appropriately called two-piece

A Graceful Summer Wrap.

resemble them, with the cape-coat flourishing in all types.

Coats with regulation capes, for summer wear, like the model pictured, are made of rep, flannel, crepe, georgette and lace, but in the sheer fabrics for warm summer days the cape proportion is shorter and more fanciful. Rep and the heavier crepes are the choice for coats that must provide some measure of warmth. The model shown here, if made up in navy blue rep and lined with bright red crepe, or shantung, will prove dashing and useful. In black or gray crepe it will

daytime dresses or even informal afternoon frocks. Therefore we will discuss sports clothes by leaving out actual sports wear and talking of informal clothes instead.

Pastel colors in flannel, jersey, kasha or rayon mixtures, or in crepe de chine, might be chosen for either of these frocks and the plaited skirt goes without saying—it is taken as a matter of course that a sports dress has a plaited skirt. In the dress at the left the jumper is decorated with bands piped with silk in a contrasting color and has an odd shaped belt fas-

The Paris Idea of Sports Clothes.

serve almost every purpose for day or evening wear.

Everyone who appreciated the charm of last summer's georgette coats will welcome this year's cape coats made of the same exquisite material. They are most useful in black and are made usually with rounded capes of varied lengths, single, double or triple, and sometimes scalloped at the edges. Their only rivals in sheer beauty are those large georgette scarf shawls, made of a square of georgette, surrounded by a deep border in black or other contrasting color.

For sports wear or travel, tweeds in new weaves and new patterns are the first choice.

Perhaps women have come to regard the summer time itself as a sporting event and mere living as a pastime. Anyway, when the good

tened with a buckle. The embroidered medallion in the same color might enclose one's monogram, as an elegant finishing touch. For the frock at the right, crepe de chine will prove a good medium and buckles play a conspicuous part in its adornment.

One can hardly say "sports dress" without being understood to mean jumper dress, just now, two-piece costumes are so far in the lead of others. Jersey is the most popular material, but kasha, flannel, rayon mixtures, crepe de chine, radium silk and marocain are all in the running. Among the silks are some gay, striped patterns and costumes with skirts of a striped fabric and overgarment of a plain one—or the reverse of this order—are more fashionable than matched pieces.

ATWATER KENT IGNITION for Fords

A Tonic for Fords, Old and New

Motors run smoother, start easier, and give more power with the Atwater Kent Type LA Ignition System—proven on thousands of Ford Cars.

More than a timer, in fact it's a complete scientific ignition system with twenty-six years' experience in making scientific ignition systems behind it.

It's of the same general design, material, and workmanship as the Atwater Kent Ignition Systems furnished as standard equipment on many of America's foremost cars.

It may be installed in less than an hour. It's everlastingly dependable. It costs but \$10.80.

Improved Apex Vacuum Cleaner

When Visitors Drop In--

the most frequent question asked by visitors today in the half million Apex homes is: "How do you keep your home so clean?" and the answer invariably is: "It's my Apex. I couldn't keep house without it."

Today every house wife is recognizing the advantages and benefits of electric cleaning. The question is not "Should I buy an electric cleaner?" but rather: "What make of electric cleaner should I buy?"

The Apex easy of action and powerful of suction is the happy solution of your problems. Here is a cleaner that gets all the dirt out of every nook and corner. Unlike other cleaners, it cleans evenly across its ENTIRE NOZZLE WIDTH. It cleans under low built, heavy furniture where other cleaners cannot reach. You will never be satisfied with any cleaner that does not do these things. The Apex can be purchased on the easy payment plan. Cash price \$45

A FIRST LADY

Mrs. W. Freeland Kendrick, wife of the Mayor of Philadelphia, who also is president of the Sesqui-Centennial International Exposition Association, organized to stage a great celebration to commemorate the 150th anniversary of the signing of the Declaration of Independence. Mrs. Kendrick is shown beside the historic Liberty Bell, which she tapped at a recent broadcasting event when the world was told of completion of plans for the big exposition.

COPYRIGHT BY DOUBLEDAY PAGE & CO.

A TALE of the "Far North," of men and animals, filled with the brute passions of both, but gilded with glorious romance as well. The remarkable dog, Baree, part husky and part wolf, whose dog instincts prevailed when it came to serving his friends and whose wolfish ferocity was uppermost when wreaking vengeance on his enemies, plays a part that is almost human in a story as thrilling as you have ever read.

THIS SPLENDID TALE WILL BE
PRINTED SERIALLY IN

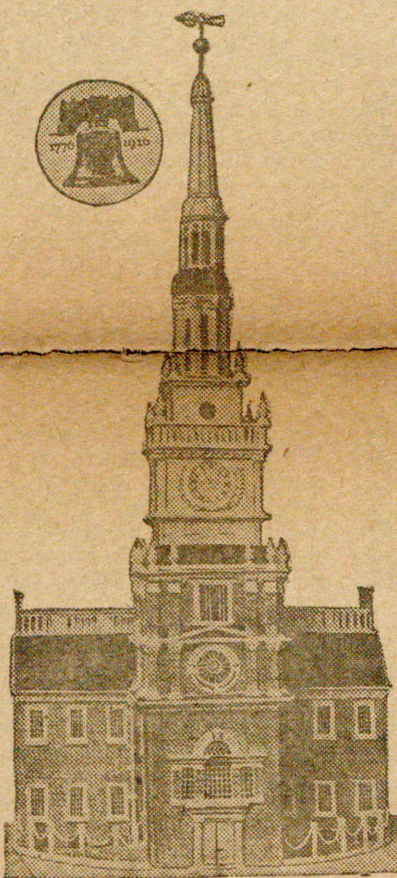

The News-Bulletin

1ST AMERICAN YOUTH ENTRY

Edith May Adams, eighteen-year-old Barrington, N. J., girl, presenting her entry blank to Mayor Kendrick in his office at City Hall, Philadelphia. The American Youth and Teacher Award was established as a tribute to American youth and teachers by the Board of Directors of the Sesqui-Centennial International Exposition, through which the people of the United States and the world at large will celebrate the 150th anniversary of the Declaration of American Independence. The exhibition will run from June 1 to December 1. Miss Adams' entry blank cited her for heroism displayed recently when she remained inside a burning building helping doctors render first aid to injured firemen. She is a candidate for the Golden Eaglette, the highest gift within the hands of the Girl Scouts. Each state will elect a girl and boy and one teacher to represent them and the successful candidates will be the guest of the Sesqui officials from June 28 to July 5 at the exposition. This will also include a trip to Washington where they will be received by President Coolidge and presented with medals.

HISTORY IN CAKE

This replica of historic Independence Hall in Philadelphia is a fine example of the baker's art. It was made by the chef of one of Philadelphia's leading hotels to advertise the Sesqui-Centennial International Exposition, which will open in that city June 1 and run to December 1 to celebrate the 150th anniversary of American Independence. The "State House" stands on a table at the entrance to the main dining room of the hotel.

AMERICAN YOUTH

Elizabeth ("Betty") Clark, 13, of Cedars, Delaware, is one of that state's girl candidates for the American Youth Award, established by the directors of the Sesqui-Centennial International Exposition, to be held at Philadelphia from June 1 to December 1 in observance of 150 years of American Independence. If "Betty" is finally chosen to represent Delaware she will be given a week's trip to the Exposition and to Washington and the White House, where she will receive a medal from the hands of President Coolidge.

NEW LENOX

John C. Urch and his niece Miss Rilla Fellows expect to leave by July first on a trip to Portsmouth, Mass., the former's home town. It has been 33 years since Mr. Urch last visited Portsmouth. His mother, brothers and sisters are buried there. The city and surroundings are rich in historical interest. He expects to be away for several weeks.

Mrs. Gordon Taylor underwent an operation for the removal of a goitre at Mayo Bros., hospital in Rochester, Minn.

The annual commencement exercises of the New Lenox school were held at the Grange hall Wednesday night. Fourteen students graduated.

The present principal has been re-engaged for another term.

FREE CLINIC AT JOLIET

Dr. Roswell T. Pettit, of the Ottawa Sanatorium will conduct a free Chest Examination clinic under the auspices of the Public Health Council, Thursday, June 17. Hours will be from 8:30 to 12 A.M. and from 1:00 to 3:00 P.M. Clinic will be held in the Public Health Council rooms, Auditorium Bldg., in Joliet.

FRANKFORT

Miss Martha Peters and Henry Nordmeier of Matteson were married last Saturday afternoon at the St. Peter's Evangelical church, the Rev. G. Gerhold officiating. They left for North Dakota on a wedding trip and will visit with relatives.

John Hanson and Wm. Peters expect to leave soon on a trip to Iowa to visit relatives.

Excavation work has been begun for the basement and foundation of the new St. Peter Evangelical parsonage which is to be completed this summer.

Fred Heisner who has been ill is much improved.

Mr. Flaherty of Manhattan and family moved here Saturday and are living in the Chas. Pfaff, Jr., house with Mr. Knight and family. The Knight's expect to leave soon. Mr. Flaherty has been engaged as principal of the local school.

A large number of our town people attended the funeral of Mrs. Becker held at the St. John church at Mokena Monday afternoon.

Sunday noon a fire started on the roof of the Henry Haake house from a spark of a chimney. The fire department was called out and put the blaze out. A hole was burned thru the roof and only small damage was called. It was fortunate that the blaze was so quickly put out as the high wind blowing at the time could easily have scattered the burning brands to other buildings.

Mr. and Mrs. George Andrews have been visiting with the former's sister at Harvard who was stricken with a stroke a few weeks ago. She is somewhat improved.

Mr. and Mrs. Chas. Pfeifer and daughters, and Mrs. Fred Woodcock visited Sunday evening at the home of Mr. and Mrs. Frank Pfeifer in Chicago Heights.

Mrs. Elmer Bartlett entertained her sister and family of Joliet and her daughter Lima of Silver Cross hospital last Sunday.

Mrs. Peter Pfeifer had all her children at her home last Sunday.

Mrs. Peter Folgers entertained the Pinochle Club at her home last Thursday. The prizes were awarded to Mrs. Wm. Lankenau, and Tillie Bettenhausen. The next party of the club will be at the home of Mrs. Herbert Minger on June 18 at 1:45 o'clock. Mrs. Lankenau was a guest of the club at the meeting at the home of Mrs. William Folgers.

Thumb Not "Finger"

Strictly speaking, the thumb should not be referred to as a finger and we have on each hand four fingers and a thumb. The term that refers to all five of the divisions of the hand is digit. However, the word "finger" has come to be used loosely in reference to the four digits and the thumb.

**Public Service
Engineer Passes On**

Frank E. Goodnow, 43, Electrical Engineer for the Public Service Company of Northern Illinois, and member of Mayor William E. Dever's Chicago Radio Commission, died Thursday, May 27, after an illness originating last December.

Apart from his activities with the Public Service Company, Mr. Goodnow was widely known in mid-western electrical engineering circles. His appointment as a member of the Mayor's Radio Commission was on recommendation of the Western Society of Engineers, of which he was a member.

Mr. Goodnow was graduated from the Massachusetts Institute of Technology in Boston in 1903, and entered the employment of the Public Service Company, operating department, in 1909. A few years ago, at the instance of the company he made an extensive study of electrical and radio development in several European countries.

He belonged to the American Institute of Electrical Engineers at the time of his death was a member of the executive committee of that organization's Chicago section. In 1922 he served on a committee for the study of railroad electrification in which capacity he made several tours over various sections of the country. During the war Mr. Goodnow rendered important service to the Government in connection with radio work at the Great Lakes Naval Training Station.

Mr. Goodnow is survived by a widow, two sons, his mother, a sister and a brother.

Funeral services were held from the chapel of the Memorial Park Cemetery in Evanston, Saturday afternoon, May 29.

The "Ozarks"

Ozark is a corruption of the French word *aux arcs*, and means "with bows," a term descriptive of the Indians who formerly inhabited the country.

Term of Opprobrium

The term Yankee, according to Bombaugh, is not Indian, but Dutch, and means to snarl and quarrel. It was applied by the burghers of New Amsterdam to the invaders from Connecticut.

ORLAND

The Orland State Bank is growing by such great strides that a new assistant cashier has been added to the competent force and gives promise of being quite a valuable addition. We are not able at this time to give her name, but she made her appearance at the Lying In Hospital in Chicago on June 4th and claims as her parents, Mr. and Mrs. Geo. Gee, Jr., the former being the congenial banker at this bank.

A post nuptial shower for Mrs. Joseph Gee was held at the home of Mrs. Geo. Gee Sr. About forty guests were present and after a pleasant social afternoon, the many gifts were examined and refreshments were served.

Mr. John Creer and his daughter Mrs. Henry Tilsey of Marley are leaving for San Francisco to visit a sick sister of Mr. Creer's.

ORLAND M. E. CHURCH NOTES
Friday June 11th. Moving picture features Thomas Meighan in "The Alaskan". Also Pathe news reel and Aesop's Fable comedy.

Sunday June 13th. Bible School at 9:30 A.M. In place of the regular morning worship the Children's Day Exercises of the Sunday school will be held at that time. The offering of the morning will go for the Student Loan Fund of the Methodist church. At the evening service we will have a picture of one of our great American poets. The address of the evening is entitled "Ole Bull and the Snapping Violin String."

The picture for Friday evening June 18th features Jack Pickford in "The Hill Billy", a story of the days of yesterday in the Kentucky mountains.

Sunday morning June 20th the pastor will preach the first of several sermons on what he calls, "The World's Greatest Short Stories." The first of these short stories is "The Two Losses." Do not miss this opportunity.

The evening service on Sunday June 20th is under the direction of Mr. Clarence Beagley. The picture for this evening is entitled "Back of the Button."

On Sunday morning June 6th 3 new members were received into the fellowship of the church. Mr. Frank J. Gould from Bone Gap, Ill., Mrs. Howard Cooper from South Holland Ill., and Mr. Robert Murdock from the Buena Memorial Presbyterian church of Chicago. A special sermon on the challenge of church membership was a part of the reception of these splendid young people to the church.

Sunday afternoon June 6th, two former parishoners of the pastor and wife visited the Methodist parsonage. They were Mr. and Mrs. Josiah Bond of the South Shore M. E. church of Chicago, of which Mr. Setterlund was once pastor, prior to his leave for Japan. On Memorial Day two parishoners from Chicago Heights, the Misses Jean and Ruth Hunter were visitors at the Methodist parsonage at Orland.

FRANKFORT

Mrs. Edward Warning and baby boy came home from Silver Cross hospital, Monday.

Mrs. Thomas Herschbach, mother of Otto Herschbach, who broke her arm at the home of her daughter, Mable Wallace in Chicago Heights, a week ago is improving nicely. She was in the yard for a walk when she fell and broke her arm.

Mr. and Mrs. Philip Leiner of Chicago were Sunday guests at a dinner at the home of their cousin, Mr. and Mrs. Chas. Pfeifer and family. Mr. and Mrs. Leiner also visited their old friend, Grandma Bauman.

Walter Herschbach underwent a tonsil operation Monday morning at Silver Cross hospital, Dr. Hedges being in charge. He returned home Tuesday morning.

Mrs. George Andrews started a Sewing Club at the school assembly room Tuesday afternoon with a class of 23 girls. They will meet every two weeks.

Last Thursday evening the Alumni of the Frankfort Public school met at the St. Peter's church basement at their twentieth annual banquet. The following program was given:

Speech by president of 1926 class. Piano solo—Dorothy Anna Koerner Reading—... Marie Stellwagon

**Palos Festival
Largely Attended**

The annual Festival of the schools of southwest Cook county was held at the old Sharpshooters' Park in Palos Park on Friday June fourth.

Districts 4 and 5, presided over by Miss McClaughry and Miss McMahon, Country Life Directors and assistant school superintendents, were represented at the festival. There are 40 or 50 schools in these two districts and more than 1000 people attended the affair.

In the morning over 300 graduates of these districts assembled and after a short program were presented with their diplomas by Mr. Tobin, Cook County Supt., of Schools.

At noon lunches were eaten under the trees and at 1 o'clock a very interesting parade was enjoyed which was given by the all the schools. Each school was dressed to represent an idea or to carry out an effect. Some schools had floats.

The one-room school winning 1st prize for its appearance, was Dist. 138, known as the Stellwagon school. Each pupil was dressed to represent a yellow butterfly.

The first prize given to two-room schools went to the Midlothian school and was a float representing a viking ship. Another school was represented by each pupil dressed as sailors. Many other fine ideas were thus presented.

After the parade there were races and other interesting features thus making the day an enjoyable one as well as profitable one from the educational stand point, to all who attended.

SITE OF THE FIRST PHONE MESSAGE

Walter S. Gifford (left), president of the American Telephone and Telegraph Company, and Leonard H. Kinnard (right), president of the Bell Telephone Company of Pennsylvania and Associated Companies, are shown standing on the exact spot where Alexander Graham Bell first talked over his invention at the Centennial Exposition 50 years ago. In the background can be seen Memorial Hall, relic of the Centennial, and which is now being used as a museum. It was on this spot that Don Pedro, then Emperor of Brazil, met the 29-year-old inventor and exclaimed, "My God, it talks!" when he heard Bell's voice come over the wire. The exhibits to be staged by the organization these men represent will be one of the great features of the Sesqui-Centennial International Exposition, which opens in Philadelphia June 1 and continues to December 1 to celebrate the 150th anniversary of the signing of the Declaration of Independence.

Speech... Mr. Knight
Roll Call... Vera Osmus
Solo—... Remarks by parents of this year's graduates.

Refreshments were served of sandwiches, pickles, cake, ice cream fruit and coffee.

In honor of Sara Balchowsky graduating from Joliet High School this week, a graduation dinner was given at the home of Mr. and Mrs. Chas. Balchowsky, Saturday. The out of town guests were: Lois Ahlberg, Kathryn Leslie, Elbert Sippel and Ruth Bettenhausen.

Mrs. John Clark and son Ted visited at the home of Dr. Paul Clark and family in Marsailles last week.

The Cheerful Workers of the Second M. E. church held a social meeting Tuesday evening at the church basement. William Krapf will entertain the next meeting at his home on June 29 at 7 p. m.

Mr. and Mrs. Chas. Balchowsky entertained their daughter, Mrs. E. Holden of Chicago recently.

Mrs. Frank Cheney spent Tuesday in Chicago Heights with relatives.

Mrs. Peter Pfeifer who has been ill for seven weeks remains about the same.

Rev. Otto Frey of Green Garden spent several days last week at the German M. E. District meeting at Melvin, Ill.

The Ashlar Band assisted by the Frankfort members will give an open air concert at the local school grounds the first Thursday in July being the first day of July. Every one is welcome.

The Frankfort Home Improvement Club will meet at the home of Mrs. Chas. Balchowsky on Thursday afternoon, June 17. We hope to have with us Miss Ruth Buck, "The Home Bureau Adviser" of Kankakee County. All the ladies are asked to bring a piece of old linen as we want a good display on exhibition instead of a paper on "Table Linen" and its substitutes. Everybody welcome.

**Happy Wedlock
Sure Thing If
Bride Is Cook**

By KATHRYN ST. JOHN

Haphazard meals yearly ruin thousands of marriages. Most marital ships would maintain an even keel if brides knew cooking.

Many of the first year's troubles between newlyweds would be avoided if the wife were capable of preparing foods with an experienced hand. Wives are to blame for the failure of many business men in the final analysis. The business man's health depends a great deal on what he eats. And it's up to his wife to see that he gets the right kind of food. A healthfully balanced diet goes a long way toward making the tired business man less fatigued.

The expert home manager sees to it that her husband never comes home to a delicatessen lunch. There is a carefully planned meal waiting for him. The real housewife knows that an unbalanced diet means trouble and avoids it. Likewise, she appreciates the fact that variation in her menus is important. In this connection the following recipes have been selected as an aid to the home manager:

Frozen Salad.

1/4 cup mayonnaise 1/2 cup candied dressing cherries
1/2 cup diced pine- 1/2 cup diced bananas
apple
4 tbsp. pineapple 2 tbsp. lemon juice
juice 1/2 cup evaporated milk
1/2 cup cream
Mix the fruit and juices. Combine milk and cream, chill and whip; then fold in the fruit and mayonnaise. Pour into a mold and pack in equal parts of salt and ice. Serve on lettuce leaves. This serves eight.

Orange Bavarian.

1 tbsp. gelatin 2-3 cup evaporated
1/4 cup cold water milk
1 cup orange juice 1-3 cup whipping
8 tbsp. lemon juice cream
1/2 tsp. salt 1/2 cup sugar
Soak gelatin in cold water, add fruit juices, sugar and salt. Heat in the top of a double boiler until gelatin dissolves. Strain and set in pan of cold water. When mixture begins to set, fold in the evaporated milk and cream which have been beaten stiff.

Banana Ice Cream.

6 very ripe 2 cups evaporated
bananas milk
1/4 cup lemon juice 2 cups cream
2 1/4 cups sugar 1/2 tsp. salt
Scrape off adhering fibrous portion on surface of peeled bananas. Mash and rub through a sieve. Add the rest of the ingredients in the order given and stir until all are well blended. Let stand for 20 minutes so that all sugar may dissolve. Freeze in a 1 to 6 salt-ice mixture. This recipe makes 1/2 gallon cream.

**Give
Electrical
Gifts**

**For Lifetime
Enjoyment!**

IN this era of sensible giving nothing else is more attractive and more welcome than life-time electric gifts. They confer so much of freedom and leisure for family comradeship.

"Ready for Golf in a Jiffy"

—says the bride whose ironing, or other housework, is done the easy electrical way. The Thor folding portable ironer does a day's work in a couple of hours. Think of the joy of that! And it can be purchased the "Little by Little" Way, with the first payment only

**New!
Percolator
Gift Sets
at very
special prices!**

A leading design by Manning & Bowman. 6 cup percolator with other pieces to match—
\$18.00

"The Buckingham." Nickel-plated copper 7-cup percolator; something any bride will be particularly proud of—
\$19.50

"Federal." The percolator in this group holds 9 cups.
\$19.75
Complete with sugar and creamer

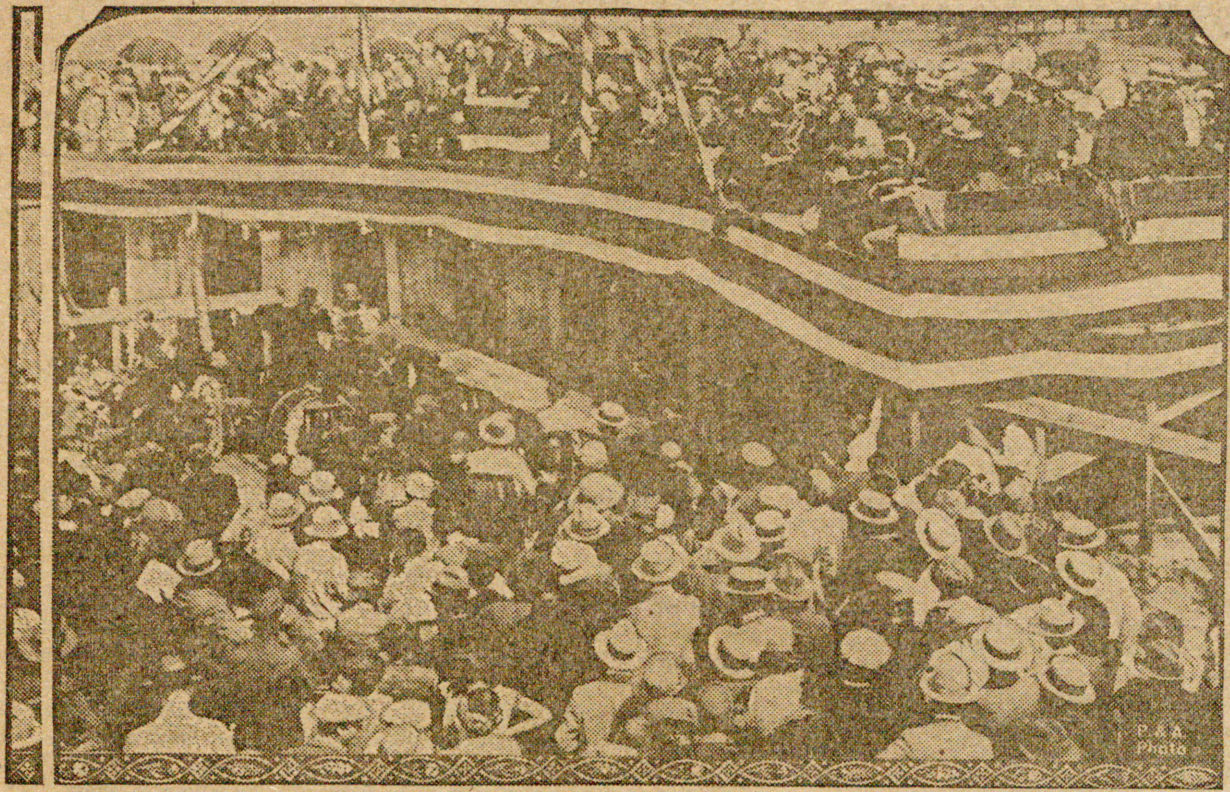

Special Offer!
\$1 for your old percolator applied on any electric percolator in stock.

Note: Under new low rates for electric service, effective May 1st, 1926, the cost of operating appliances is greatly reduced.

**PUBLIC SERVICE COMPANY
OF NORTHERN ILLINOIS**

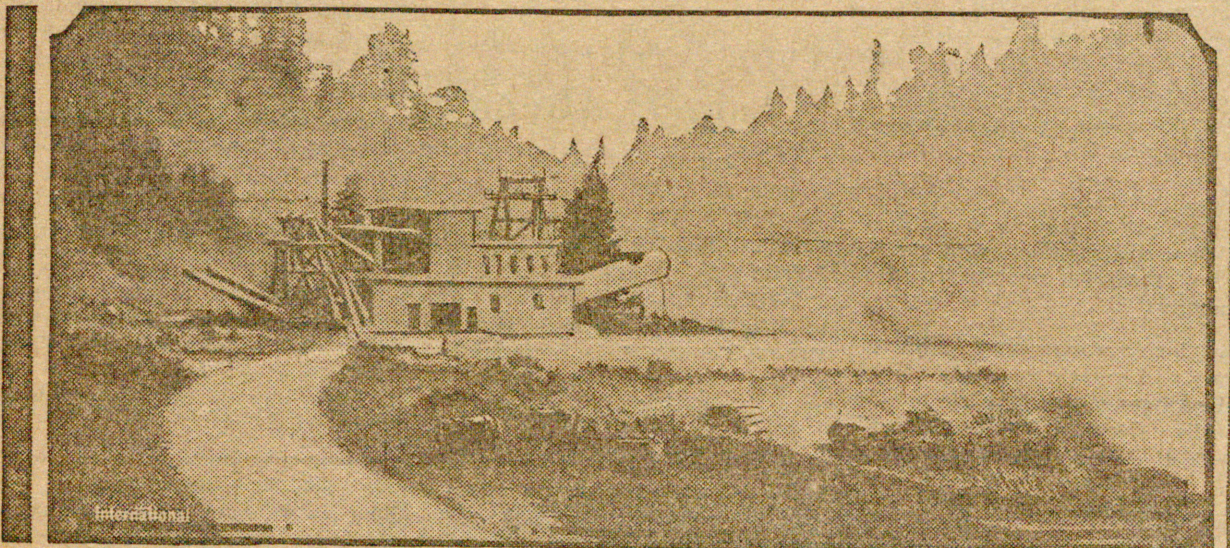

310 Van Buren St., Joliet
Telephone 636
L. C. Stephens, District Manager

Laying Cornerstone of Harding Memorial

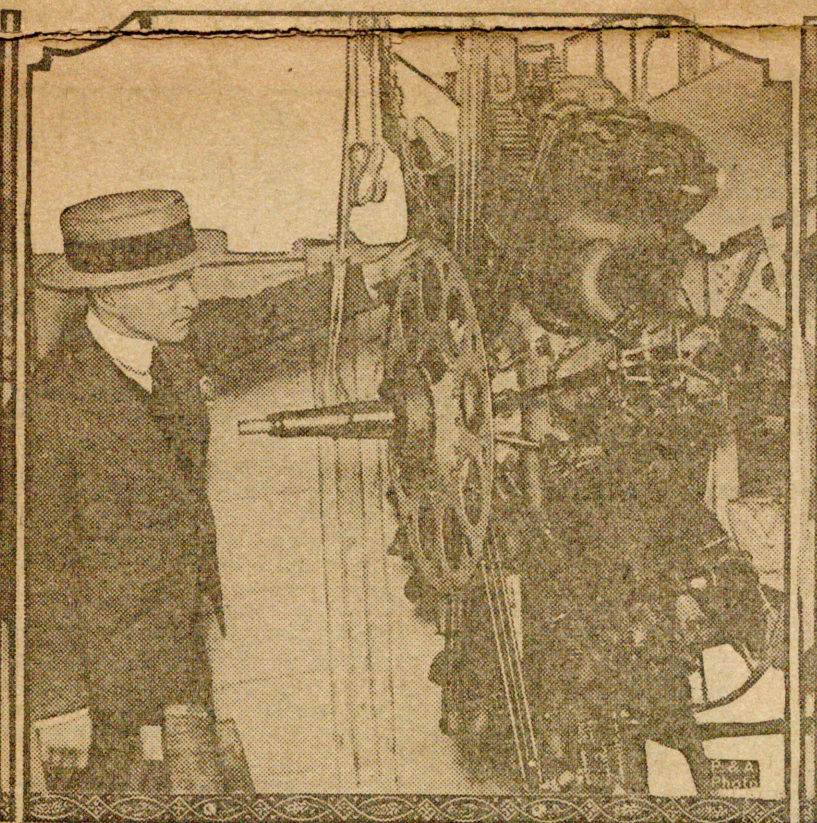

Over forty thousand persons paid homage to late President Warren G. Harding and his wife, Florence, when the cornerstone of the Harding memorial, at Marion, Ohio was laid. Vice President Charles G. Dawes laid the cornerstone and made the dedicating speech.

Dredging Gold From a Washington Highway

Motorists who use the Yellowstone Trail highway, fourteen miles north of Cle Elum, in the state of Washington, are forced to make a detour when they find a huge gold dredger at work in the middle of the road. The highway runs over what was the bed of the old Swauk creek. The gold-bearing gravel was worked by white and Chinese miners many years ago, who stopped work there when the big strikes were made in the Klondike. Recently a group of men in eastern Washington incorporated and put the dredge to work, as they hold the mining rights to the land the highway runs over. The dredge is taking out over a thousand dollars a day.

Getting Ready for Atlantic Flight

Rene Fonck, noted French aviator, at Roosevelt field, Long Island, N. Y., inspecting his uncompleted plane in which he will try the New York-Paris flight.

Summer Brings Seals to Avalon Bay

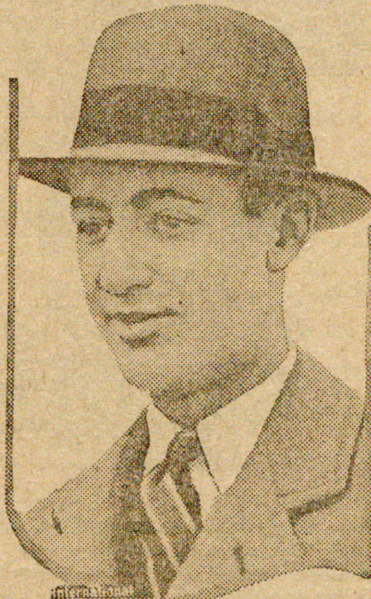

Here's a sure sign of summer. The world famous seals of Santa Catalina island, off the southern California coast, have migrated to the waters of Avalon bay ready for the handouts from the thousands of summer visitors. No one knows what they use for a calendar, but they're punctual to the day, when the summer season opens. Many of the seals are known by name.

HEROINE OF WAR

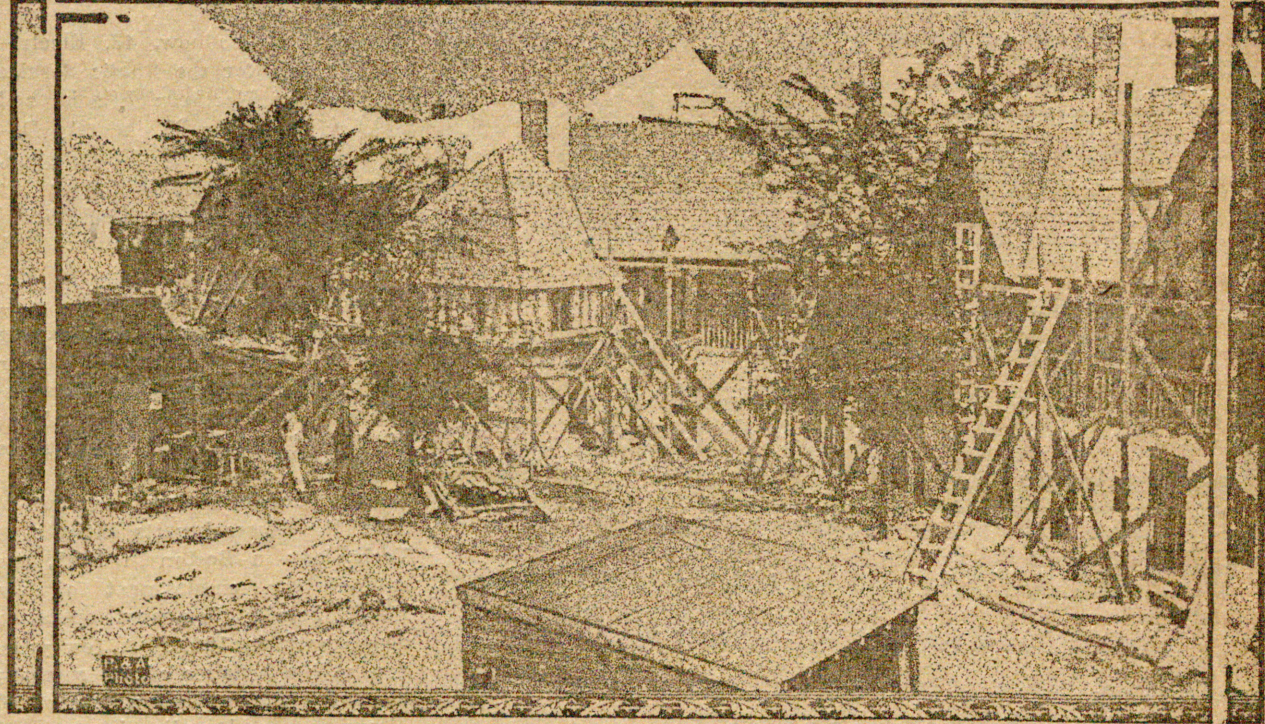

Dame Rachel Crowdy of England, who was awarded the Mons Star, the Royal Red Cross and was made a Dame of the British Empire for the heroic work she performed as a nurse on the battle front during the World war, came to the United States to visit in Washington and to attend the National Conference of Social Work in Cleveland, Ohio.

WINS YALE PRIZE

Paul Mellon, son of the secretary of the treasury, who was awarded the McLaughlin prize for excellence in English composition, for which members of the Yale freshman class are eligible to compete. Young Mellon's essay was entitled "Donn Byrne, His Place in Literature."

Bit of Old England at the Sesquicentennial

Work is rapidly progressing on the buildings and scenes for the Philadelphia sesquicentennial which is to open June 1. Photograph shows work being done on reproduction of row of houses of Chester, England. In the background is shown a reproduction of the Rocky mountains.

Fastest Cable to Span Ocean

New Strand Will Have Speed Rate of 2,500 Letters a Minute.

New York.—Early this summer the work of laying the world's "fastest" cable will be started. Slipping away from the stern of the ship Colonia a copper strand 3,800 nautical miles long will drop to the bed of the ocean to lie in the perpetual darkness of the depths. By the end of summer all of it will be in place. The shore ends will then be connected and another line of communication will have been established between the old world and the new.

The new line, which will afford direct communication between New York and London, and will be the twentieth transatlantic cable, will have a speed of 2,500 letters per minute. It will be eight times as fast as any cable now connecting these two points and considerably faster than the copper strand connecting New York with the Azores, which at present possesses the distinction of being the world's fastest cable.

Like the New York-Azores cable the new one will be sheathed in a wrapping of permalloy. This is a new metal whose discovery was the result of the growing demand for speed and more speed in transatlantic communication. As the telegraph companies had long been using automatic devices for sending and receiving messages, the attention of cable engineers was turned to the possibility of improving the cable itself. This resulted in the discovery of permalloy, and made possible the new and improved lines.

Permalloy is an alloy of iron and nickel. Under certain conditions it has a magnetic permeability many times that of any other known substance. In the form of a continuous strip of metal one-eighth of an inch wide and six-thousandths of an inch thick the permalloy is wrapped around the 3,800 nautical miles of the copper conductor of the cable. This prevents the leakage of current common to the older types of cable and gives the new line of communication its great speed. While it is not strictly accurate, electrically speaking, to state that the permalloy wrapping increases the speed with which the impulses pass from one end to the other, it makes possible, however, the sending of such sharply defined signals that the intervals at which they follow each other are considerably reduced without overlapping.

Cable Ship Has Right of Way. While engaged in the laying of this cable the Colonia must proceed in as straight a line as possible and other ships must keep out of her way. A detour of a mile or more might result in the unnecessary laying of two or three miles of cable at a cost of more than \$1,000 a mile. The cable ship, furthermore, being attached to the cable is not as free in its movement with respect either to speed or course as an ordinary ship.

When engaged in active duty the Colonia flies the cable sign. This is an internationally recognized signal that the ship is engaged in cable laying and must be given a wide berth by all other craft regardless of their ordinary rights. This sign, which was adopted at a conference of civilized powers, consists of two red canvas globes with a white canvas diamond between them, hung vertically in the rigging. The globes are about two feet in diameter and are hung six feet apart. By night the cable sign consists of lanterns hung vertically, red at top and bottom and white between.

According to international law ships flying the cable sign are supposed to be given immunity in time of war. During the World war, however, the rights of cable ships disappeared. Relying on this presumed neutrality one was fired upon by a submarine during the early days of the war and badly damaged. Managing to make temporary repairs, she was limping into port when again attacked and sunk. During the remainder of the war the immunity of cable ships was purely fictitious.

While cables usually function without interruption, careful records of cable laying are kept so that if any breaks occur in the copper strand it may be picked up for repairs with a minimum of trouble and delay. Cable interruptions can usually be traced to one of several causes. In deep water far from the shore these interruptions are often due to armor decay. The steel protection around the cable becomes rusted, leaving only the gutta percha covering over the copper wire conductor. This protection is subject to chafing and soon the copper conductor comes in contact with the water, is grounded, and communication fails.

Most Breaks in Shallows.

Most of the breaks, however, occur in shallow water near the shore, as there is little to interfere with the smooth working of the cable in the depths of the sea. Near the shore the cable has a host of enemies both animate and inanimate. The worst of these, especially in the warmer waters, is the toredo, the boring sea worm against whose ravages ships' bottoms are copper sheathed and wharf piles are concreted. As a protection against the toredo the shore ends of cables have a layer of brass tape wound about them between the gutta percha insulation and the galvanized sheathing wires.

In northern waters icebergs grounding on shoals often grind the cables flat, exposing the conductor or severing it entirely. Once the carcass of a whale, entangled in many loops of cable, was hauled up by a cable ship.

It was evident that the animal's death struggle had parted the cable. At another time the story of what happened to the insulation was told by the finding of a shark's tooth embedded in the cable's covering. Closer in shore cables are often caught by the trawls of fishing boats, which drag the ocean bottom to a depth of 1,200 feet or more. The first international cable, laid from Dover, England, to Calais, France, was picked up by a fisherman who thought he had caught a new kind of eel.

To grapple for a broken cable in the depths would seem an almost hopeless task; yet so carefully are the records kept, showing the exact position of every mile of the cable, and so expert have the cable layers become, that it is an everyday job to pick up a particular section of cable in a depth of two or three miles. The job is always accomplished, although sometimes with difficulties multiplied by storm and cold.

Problems of Repair.

Sometimes in the course of laying a cable, more often when cable repairs are under way, the cable ship is obliged to cut loose and run before the storm for safety. Cable laying is planned in advance for seasons when fair weather may be reasonably expected; cable repairs have to be made when the break occurs, which is more likely than not to be in mid-winter.

The cable ship is always prepared to cut the cable and attach a buoy to the severed end, to be picked up again when conditions permit. Throughout the voyage buoys are kept ready, slung in the rigging above the upper deck, with the buoy lines—two or three miles of rope—coiled where they can be used with the least delay.

When a break occurs in a cable it is possible to tell from the shore by electrical measurements and calculations how far from either end the trouble lies. A cable ship then hurries to the spot which is clearly indicated on the chart made when the cable was laid or last repaired.

Having arrived at the place where the cable is to be picked up the cable ship puts over an anchored buoy to mark the point of departure. It then steams back and forth across the line of cable dragging a grapnel which resembles a five-pronged anchor over the sea floor. In shallow water an ordinary grapnel is used. For depths of a mile or more a special form of grapnel has been devised which, when it hooks the cable, cuts it in two and holds one of the severed ends tightly. It is a simple matter, once the cable has been hooked, to splice in a new section and then haul up the other end and splice that on.

Hugged Wrong One

New York.—Slipping his arm about a blonde woman in a motion picture theater, Edward Pugh, twenty-nine years old, found himself in the grip of Edith Frey, jujutsu expert of the police department, who arrested him.

Soaked Virginia

New York.—Virginia Barnes, twenty-four years old, had a smoke on a city ferryboat against the rules. So did 14 men. The men were fined \$3 each and Virginia \$5.

EARNS HIS LIVING DUSTING BILLIONS IN GOLD BULLION

Bill Smith Has Strangest of Many Strange Ways in Which New Yorkers Make Their Money.

New York.—Of the many strange ways which people have found of making a living in New York city, perhaps the strangest is that selected by Bill Smith. Besides being a porter with the Federal Reserve bank of New York, Bill is a champion duster, and confines his activities to gold bullion. The gold stored in the underground vaults of the bank must be kept just as clean as the floors and office furniture in other parts of the building. Accordingly, it is dusted whenever the vaults are opened. This may be every month, every three months, or even every six months, depending upon how fast Uncle Sam spends his money.

On these occasions it is nothing for Bill to grasp his trusty duster, step into the vault and flick the gray coat-

ing from several billion dollars' worth of gleaming bars in an hour or two.

As a runner up for the laurels of New York's oddest job holder there is Walter Baugh, who finds the commercial possibilities in fishing tackle to his liking. Each morning at 5:30 Mr. Baugh may be seen marching through Battery park clutching a burden of fishing tackle and blood worms. He is tall, has only one eye and ekes out a fair existence peddling rods, lines and bait to those followers of Izaak Walton who set out via Battery park.

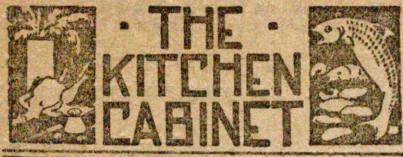

Fancying neither fishing tackle nor dusting, there are other individuals who wrest the necessities of life and some of the luxuries, from the odds and ends abandoned by their fellow men. Some persons salvage waste paper from the streets, working fast in the first flushes of early dawn to beat the competition offered by the city street cleaning department. Their

paper salvagings are carefully baled and sold, while bits of foil are rolled into balls and bring a higher price.

Others make it their business to stay close to the docks and pounce upon bits of cargo spilled when ships are unloading. Fruits and nuts they seize, broken pieces of cheese, or occasionally a bolt of cloth which has slipped unobserved from some cargo sling. A leaking case of olive oil always brings to light several men with sponges and buckets.

Although confining their activities to the shore, these men have counterparts afloat. Those making a living from the waters do not fish. Seated in small boats, they drift about the harbor salvaging driftwood which is sold along Park avenue. Impregnated as it is with salt and chemicals from the harbor waters, the wood produces varicolored lights in the drawing-room fireplaces of the wealthy.

New Haven, Conn.—There's a movie at Yale of sleeping sickness. It will be the nucleus of a library of films of various diseases.

(© 1926, Western Newspaper Union.)

Life is not so complex if we do not persist in making it so. We need faith; we need to be brave; we need chronically to keep the corners of the mouth turned up and not down. And, after all, it is only a step at a time.—Ralph Waldo Trine.

SEASONABLE FOODS

Those acquainted with only the cultivated and canned mushrooms, do not realize the rare flavor of the field variety. They are found in abundance now and up to the time of frosts which kill them. It is better to buy them in the market, if you have no knowledge of the edible varieties, than to risk being poisoned. The field mushroom, if brushed and peeled, the cap dressed with a spoonful of butter and broiled over coals or under gas, is delicious. Served alone on buttered toast, the mushroom is at its best, as many food flavors confuse its delicate taste. Cooked in butter for five minutes, cream added and served as a supper dish, it is unsurpassed as a dainty.

Hash.—Take chopped beef either cooked or raw, add butter and a chopped onion to a hot frying pan, now add twice as much chopped cooked potato as meat, a teaspoonful of grated horseradish, or less, and salt and pepper to season. Add cream from time to time to moisten and cook until well blended. Serve like an omelet, rolled out on a hot platter and garnished with parsley.

Cheese and Olives Canaps.—Cut stale bread into one-quarter inch slices. Shape with a small oblong cutter with rounded corners. Cream, butter and add an equal quantity of soft rich cheese; season with salt. Spread the bread and garnish with one-quarter inch border of finely chopped olives and pieces of red and green pepper cut into fancy shapes in the center of each.

Moravian Apple Pie.—Core and peel six even-sized apples. Place in a covered pan with a teaspoonful of lemon juice, a little of the grated rind, a cupful of sugar and water enough to cover the bottom of the dish. Stew until tender. Line a deep pastry plate with rich pastry, place the apples in it, fill the center with peach marmalade and cover with laced strips of pastry. Bake in a hot oven and serve with cream.

Berry Cake.—Sift together a teaspoonful of soda with two cupfuls of flour. In another bowl put one cupful of sugar, one-half cupful of shortening and warm it enough to cream it easily; add the yolk of one egg, one whole egg, beat well, add one teaspoonful of cinnamon and one-half teaspoonful of cloves. Mix well and add one cupful of canned berries, juice and fruit, stir well. Now mix with the flour mixture and bake in a loaf. Ice with the egg white left, using one cupful of sugar, one-fourth cupful of water and boil until it hairs, pour over the beaten white and continue beating until cool and stiff enough to spread over the cake.

Soups of Summer Fruits. With those who are used to serving fruit soups they are considered a very important part of the menu. They are not much used in America, but we are beginning to like and appreciate them.

In the Old world the prince and peasant enjoy them summer and winter. Chilled with shaved ice they appeal to our taste, and serve an attractive beginning to a summer meal. With fruit soups the ingredients used with the fruit juice make them more or less nourishing.

Strawberry and Orange Soup.—Sprinkle a pint of strawberries with sugar and let stand on ice for an hour. Make a strup with one and one-half quarts of water and a pound of sugar with a quart of fresh berries and the juice of a lemon. Mash and strain, add a cupful of orange juice and the prepared berries and serve ice cold.

Apple and Rice Soup.—Core and slice very thin eight unpeeled apples. Cook them with a half cupful of rice in two quarts of boiling water until both rice and fruit are soft. Put through a sieve, add spice and one-half cupful of orange or grapefruit marmalade. Serve hot.

Prune and Peach Soup.—Take one-third of a pound of dried prunes and two-thirds of a pound of dried peaches, soak over night. In the morning add a pint of cold water and let them cook until boiling, add two tablespoonfuls of sage and cook until the sage is clear. Add a cupful of cherry, cranberry or other tart juice. Serve hot or cold.

Cherry and Quince Soup.—Stem and stone a pint of deep-red cherries; place them in a saucepan with the juice and rind of a lemon, half a cupful of quince juice and a pint of water. Cook until the cherries are tender, then thicken slightly with cornstarch and cook until the starch is well cooked. Serve hot.

Wafers, sweet crackers and various small pastries may be served with such soups.

Nellie Maxwell

Sports Fashions in Varied Types

Rich Materials and Win-some Colors Feature Duds for Spring Wear.

One type of dress in many variants is that which has come to be known as sports—suit, coat, ensemble clothes in general. It has been evolved in successive seasons from something crude and nondescript to a veritable synonym for chic, for service and for a certain distinction.

The interpretation given to sports togs by designers of different nationalities is entertaining, and this year is more than ordinarily important, asserts a fashion writer in the New York Times, because of the greatly elaborated models presented under the one classification. For the genuine sportswomen, English, French or American dress of a very practical sort is required. It is for those who motor, hike, ride or play at games.

For all such occasions there are new designs in suits, in two-piece frocks and in coats and capes of many materials; there are beautiful and satisfactory woolsens and worsteds, flannels, tweeds in checks, blocks, stripes and plaids, coverts, hair-line twills, chevrons, diagonals, frasca, wool velours and broadcloths. The last mentioned is the latest revival, especially appropriate for tailored suits of a more formal type. These fabrics are tailored in many simple, more or less mannish modes that make for style, utility and comfort. That "English" look which first intrigued American women has become one of the dependables of the wardrobe, and really has no rival.

Sports Dress De Luxe.

Sports dress de luxe as it is translated by creators on both sides of the water, particularly by the French, is obviously a costume to be worn in attending sports affairs. It is made of whatever material climate and season demand, but in any event it is a thing of style, even of elegance. Crepe, satin, taffeta, needlework, fine detail and beauty in color distinguish the models presented by Paris couturiers, who are making some unusual designs and emphasizing the importance of the short separate sports coat. This is cut straight, almost fitted, in half-length, coming down over the hips, and in all of the handsomest models is elaborated with embroidery of unusual design.

In some uncommonly smart coats of this description shown lately by Jaquet the material was satin or heavy crepe, embroidered or braided in silk cord, floss and metal in motifs and patterns taken from old illuminated manuscripts, tapestries or murals. In feeling they are Egyptian, Russian, Chinese, Italian, or whatever blends or combines in ways striking and artistic. Even the lines and composition of old ecclesiastic embroideries have inspired some of the detail in these original and altogether attractive designs. One model stood out among the many in the Jaquet display, a three-quarter coat of soft taupe satin crepe,

Semi-Sports Suit of Rose-Colored Canton Crepe; Scalloped Line.

the back of which was almost covered with a motif, square in outline and embroidered with self-toned floss and round silk braid into which threads of gold were stitched. A new detail of trimming, the triangular metal nail-head, was skillfully used to give richness and brilliancy to the quiet taupe shades.

In another model, done in bronze crepe, scarlet was introduced in the embroidery of Byzantine character; and still another dashing coat was done all in black and white, the design of this decoration being modernistic. These separate, delightful sports coats are in reality happy extras to be worn over crepe or georgette frocks, and they fill most satisfactorily a want in the wardrobe of the fashionable American woman.

Dressy Separate Jacket.

The dressy separate jacket is only one medium for the display of many beautiful varieties of embroidery

which is ultra-fashionable this season. It marks a definite swing back out of the plain and obvious rule of dress from which we have been gradually emerging for two years. Apparently as evening dress grows more simple, clothes for day wear and sports dress are paradoxically becoming more ornate. The little jumper suit, begun so naively and serving as a utility frock these several seasons, is now dignified with elaborate embroidery in classic designs, all done in the finest materials, even approaching the extravagant. Almost all these in late imported models show a skirt of some light-weight goods—crepe de chine, crepe Elizabeth, crepe Roma or georgette—plaited so fine as to resemble a rib or fluting. The scheme of elaboration is centered in the jumper, which, in some of the models, is varied to the line of a jacket close to the figure, or a tunic of knee length.

In a few of the imported suits the jumper is made of solid needlework, in designs of many sorts, with unde-

Sports Suit of Navy Blue Velvet and Cloth; Lace-Trimmed Blouse.

nably artistic workmanship and inspiration in color. In an imported model of sand-colored crepe de chine the bodice is cut like a slip-on sweater, but it is elaborated with an all-over design of darning, somewhat after the fashion of "shadow" embroidery as it was known years ago. This, in lovely shades of rose, blue and gold, has the effect of a bit of old rich brocade.

In pale gray crepe Roma the skirt of the suit is, as usual, finely plaited, with a row of fagoting above the hem. The jumper is marked with lines of the fagoting that form a shirt bosom pattern, a finish for collar and cuffs, and, between these, motifs in silver and scarlet in geometric detail. A jumper suit in geranium red and another in fuchsia are embroidered in delicate border trimming in which much gold thread is introduced.

In some of the models two materials are used. In one the tunic is made of taffeta stitched with silver thread in the manner of quilting, and the skirt is of plaited crepe Roma.

Line Vitally Important.

For those who demand a great deal of elaboration in dress there are many examples in types besides the popular jumper. In a two-piece frock, printed crepe in beige and scarlet is used for the skirt, while the tunic is of plain beige crepe de chine embroidered down the front and back in panel effect, as well as around the bottom with a conventional small flower pattern which repeats the colors and scheme of the skirt. Much ingenuity is required in this costume to avoid confusion of pattern; the panel design introduced in the bodice only is used flat and straight from the neck to the bottom, serving to give the effect of a vest—unique, but adding little to grace of line.

Line has become vitally important, as the best designers are illustrating in their late models. Some of these are strikingly original even in this day of great diversity and wide range of styles. Vionnet continues to devise subtly intricate lines, always in the slenderizing deep points that give a graceful flare to her gowns. She keeps to this ideal, varying it in different phases, and continues to make her skirt hem line a matter of moods. Jaquet is emphasizing the new panel back in the decollete bodice. In this an underbodice in flesh tint is cut quite low, the outer material higher, but slashed to the waistline and tied across the shoulders with two sash straps. Louise Boulanger introduces this back V and panel in an evening gown of rose-colored moire, in which she illustrates her favorite bustle arrangement and long sash ends of the drapery. The peacock silhouette is established in one of the season's modes for evening—a trailing scarf drapery attached to a short skirted decollete gown, prophesying the possible return to vogue of the train.

In contrast to the peacock design, charmingly illustrated by Chanel and other Parisian couturiers, is the flat back shown in many of the new models. In gowns of this type the forward swing of drapery and the lifted front line, sometimes accomplished with a sash or tied strap ends, are shown.

IMPROVED UNIFORM INTERNATIONAL Sunday School Lesson

(© 1926, Western Newspaper Union.)

Lesson for June 13

JOSEPH'S FIDELITY

LESSON TEXT.—Genesis 39:1-23.
GOLDEN TEXT.—Seest thou a man diligent in his business; he shall stand before kings.—Prov. 22:29.

PRIMARY TOPIC.—A Noble Slave Boy.
JUNIOR TOPIC.—How Joseph Behaved as a Slave.

INTERMEDIATE AND SENIOR TOPIC.—Passing Severe Tests.
YOUNG PEOPLE AND ADULT TOPIC.—Triumphing Over Trials.

I. Joseph, the Well Beloved Son (37:3).

He was Jacob's favorite son, partly due to the fact that he was the son of the wife of his first love and the son of his old age, but mainly because of the superior qualities he possessed.

II. Joseph's Fidelity as a Son (37:12-17).

Joseph's brethren had gone to Shechem, some fifty miles from Hebron, where there was plenty of pasture for their flocks. After a time Jacob became anxious as to their welfare and dispatched Joseph, now about seventeen years old, for the purpose of finding out their condition. He did not allow the envious hatred of his brethren to deter him from his duty, but willingly responded, "Here am I." He no doubt realized that his mission was fraught with great perils—exposure to wild beasts, robbers, and the murderous hatred of his brethren. His fidelity is shown in two ways.

1. The fact that his father sent him on such a long and dangerous journey to bring back word concerning his brethren shows that he had proved himself to be a trustworthy character.

2. His brave and glad response to his father's request. He responded to his father's confidence.

III. Joseph's Fidelity as a Slave (39:1-19).

1. Sold to the Ishmaelites (37:28). At the sight of Joseph, the murderous envy of his brethren was stirred up. They first proposed to kill him in order to prevent his dreams coming true. Finally, the prudent suggestion of Judah to sell him to the Midianites prevailed and he was carried to Egypt and sold to Potiphar as a slave.

2. His prosperity while a slave in Potiphar's house (39:2-16).

The secret of Joseph's prosperity was that the Lord was with him (v. 2). This prosperity consisted:

(1) Of being accorded the privilege of Potiphar's house, i. e., his private residence instead of his fields or public buildings.

(2) He became Potiphar's personal attendant (v. 4). Observing Joseph's fidelity Potiphar chose him to give attention to his personal affairs.

(3) He was made overseer over Potiphar's house (v. 4). As a personal attendant he proved himself to be so capable that he was made administrator over his estate including his household. He no doubt purchased all supplies and had charge of the servants.

(4) He brought prosperity to Potiphar (v. 5).

The Lord blessed Potiphar for Joseph's sake.

(5) He possessed an attractive personality (v. 6). His fine physique and commanding personality were gifts from God. All our gifts should be consecrated to the Lord who gave them.

3. His temptation (vv. 7-17).

His very attractive person became his peril. Potiphar's wife became infatuated with this handsome slave, and attempted to induce him to commit adultery with her. He resisted this temptation because yielding would have been to sin against his master and his God. The man who is faithful to God will be faithful to his fellowmen.

IV. Joseph's Fidelity as a Prisoner (vv. 19-23).

Being defeated in her wicked purpose, Potiphar's wife accused Joseph falsely. Because of her charge he was thrust into prison. Potiphar must not have really believed his wife or else he would have put Joseph to death. He did to him the least that was possible under the circumstances. Because of his purity and unflinching loyalty to God and man, God was with him even in the prison.

1. The Lord gave him favor in the sight of the keeper of the prison (v. 21). This keeper was none other than Potiphar himself (40:3, cf. 39:1).

2. He was given charge of the prisoners (v. 22).

Potiphar knew Joseph's ability and faithfulness, therefore gave him employment in this new place.

3. The Lord made him prosperous (v. 23).

Joseph's success was due to the hand of his God upon him.

Ordinary Duties of Life

If there be anything, in fact, wherein the views of God and the impressions of men are apt to be at total variance, it is in respect to the solemnity and importance of ordinary duties.—Horace Bushnell.

Highest and Lowest

The highest point of heaven's throne in glory can only be reached by going to the lowest place of earth's cross—Jesus found it so, so shall we.—Prophetic News.

Summer Showers
Like some brands of food products, they appear suddenly—out of nowhere. A flurry of excitement—and they are gone and forgotten. The Monarch Trademark has been making friends for three generations.

MUTUAL-MORGAN CHAUTAUQUA

Week June 15, 16, 17 & 18 New Lenox, Ill.

PROGRAM

AFTERNOON	FIRST DAY	EVENING
Organization Junior Chautauqua	Great Sparkling Comedy—"Believe Me Xantippe"	
Musical Prelude—Allpress Concert Company	SECOND DAY	Grand Concert—Allpress Concert Company
Lecture—"The trail of the Hobo"—Dr. John A. Gray	THIRD DAY	Prelude—Dolly Varden Trio
Concert—Dolly Varden Trio	FOURTH DAY	Lecture—Dr. L. M. Dorren, "The Bulwark of the Nation"
Concert—Gifford Concert Company:		Three-Act Comedy—"Little Miss Bluebeard"
Joseph B. Gifford, Entertainer		

Don't Miss These Two Splendid Features:

GREAT SPARKLING COMEDY "Believe Me Xantippe"

In "Believe Me Xantippe" the action is fast and furious, comedy lines continuous, dialogue crisp and humorous in this three act play. The parts are played by professionals, and there is comedy, mystery, and an appealing love story all included in this great Broadway success.

"Little Miss Bluebeard"

"Little Miss Bluebeard" is a rollicking comedy which details the adventures of Colette, a French girl, who is on a visit to London, and who becomes involved in a love affair with a young Englishman. He overlooks the fact that he already has a wife and goes thru a marriage ceremony with his inamorata, being careful however, to have done this under the name of his closest friend. Bringing Colette to his friends apartment, the poor little Parisienne finds herself with two husbands on her hands, one that she has married, and the other whose name she bears, and what to do about it all is the mystery. There is an amazing twist in the plot and the audience is swept off its feet in surprise. They talk about it for weeks afterwards.

SEASON TICKETS

Season Tickets are on sale by the Committee until 6:00 P. M. of the opening day.

SINGLE ADMISSION

The two plays—Adults 75c; Children 20c
Other evening—Adults 50c; Children 20c

OAK LAWN

Real estate men, real estate owners and residents in general of the district from Homewood northwest thru Palos Park, Worth and surrounding towns, are much agitated just now over the report that the Illinois Central may build a line thru that section. That there must be some foundation to the report, is indicated by the fact that considerable land has and is being sold along the proposed right of way. A strip of 20 acres lying along the proposed route in the vicinity of Worth is to be syndicated by a big Chicago realty company it is understood. If the proposed line is built, this whole section will experience a tremendous boom.

A week ago a very disastrous fire swept the goat farm of Chief of Police, Arthur Eichler of Oak Lawn, causing a \$1200 loss of which only a very small portion is covered by insurance. A lighted cigarette thrown from a passing auto into some dry grass is thought to have started the blaze which, fanned by a very high wind soon swept over the farm. The Oak Lawn fire department was called out but could not save the burning buildings. A number of goats were burned.

At present 95th St., from Vincennes to Keane Ave., is a veritable rocky road to Dublin. It is understood that this road is to be

concreted and made 40 feet wide clear thru to Keane Ave. This means a 40 foot concrete street right thru the heart of Oak Lawn.

Work has been begun on concretizing 48th Ave., workmen being now engaged in laying concrete up to 95th street. This will give Oak Lawn a fine network of hard roads.

The Catholics of this section are preparing to attend the great Congress to be held in Chicago this month. Two of the visiting priests will be entertained at the Joseph Ryan home during the Congress.

The Oak Lawn public school is a very busy place right now with the students all busily engaged in preparing for the operetta "Lucinda or the Pearl Pearl and the Rose," to be held at the school auditorium on June 16. On June 18th the commencement exercises will be held.

Mr. and Mrs. Wiley Simmons have taken up their residence in Oak Lawn.

Miss Mable Miess is having good success with her new refreshment stand on 95th street which is being well patronized by the traveling public, especially on Sunday.

The 95th street crossing of the Wabash railroad has been the scene of several narrow escapes of autos being hit by trains. One autoist came near running into a train and only saved himself by turning his car sideways.

The Baby Welfare Clinic held at the Oak Lawn school Tuesday und-

er the supervision of Miss Irene O'Connor was quite well attended 18 babies being brought to the clinic.

Mr. and Mrs. Arthur Jensen are entertaining guests from Florida.

The Oak Lawn Trust and Savings Bank is showing a fine and steady increase in business. The bank officials held their monthly meeting Friday night.

Oak Lawn is greatly interested in the new super Southwest Highway which the county is planning to build along the Wabash to the Cook-Will County line. The new highway will pass right thru Oak Lawn and will be another big boost to the town.

Miss Hazel Phillips is continuing her studies at the Chicago University and will major in history and Spanish.

The Oak Inn which has been run by Keating has been sold by him to some Chicago men who have taken possession. The deal was closed last Friday.

Mrs. John Emery is on the sick list.

TINLEY PARK

In last week's issue an account was given of the Tinley Park school graduating exercises and a list of the graduates was given but the name of one graduate was omitted, that being Marcus Klepper who also graduated the same night and had the highest mark.

ANNOUNCING NAN RICE

at home. Expert Marcelling. Tel. Tinley Park 48-W. —Adv.

Rudolph Detwiler has been spending a few days at home from Champaign.

The top floor of the C. Bettenhausen bungalow is now occupied by Mr. and Mrs. Sandige.

Mr. and Mrs. F. Behrend have gone on a trip to California.

The Wilke family are enjoying their car.

Little Miss Lois Klepper recently had a birthday and there was a cake with candles and all trimmings. Friends and neighbors extend their sympathy to the Hick and the Stricker family in the loss of their brother who died a week ago Saturday. His remains were laid to rest last Monday, Rev. A. Buddenhagen officiating. He leaves to mourn his loss two sisters, one son and many friends.

Mrs. Hattie Vogt has returned to her duties at the Vogt Dept., store after a few weeks vacation.

NOTICE

ADMINISTRATOR'S FINAL SETTLEMENT

Estate of Edwin K. Laird Deceased. Notice is hereby given, that the undersigned, Administratrix of the Estate of Edwin K. Laird of Joliet, Illinois deceased, has caused her final Report and Account as such Administratrix to be placed on file in the office of the Clerk of the Probate Court of Will County, State of Illinois, and that she will apply to said Court on the second Monday of the August Term, A. D. 1926, being the 9th day of August A. D. 1926, on coming in of Court, in the morning of that day or as soon thereafter as she can be heard for an order of approval of said Report and Account, and for her final discharge, at which time and place all persons interested can appear and show cause, if any they have, why such order and discharge should not be granted.

Alice J. Bennett, Administratrix.
June 5th, 1926. Frank G. Brumund Attorney.

ORLAND

On Wednesday evening May 19, a Piano Recital was given by the pupils of Mrs. H. Adele Cooper at the Orland M. E. Church. This was enjoyed by a large and appreciative audience. It was announced at the beginning of the recital that Royal Glahn and Ruth Newton were ill and could not take their parts.

Those who took part were: Betty Habenicht, Ethelyn Mahaffy, Carrie Duehr, Marie Yunker, Hazel Schmaedeke, Florence Creer, Ruth Ludwig, Myrtle Townsend, Mildred Newton, Gladys Townsend, Alma Newton, James Davidson and Merrill Cooper. These were assisted by Everett Creer and Francis Glahn on the violin and cornet respectively. Mrs. Cooper played two delightful selections at the close.

Evergreen Park Gets Water
Evergreen Park is now in line for city water from Chicago. Water mains are being laid this week along side of 95th St. A ditching machine is digging the trenches for the mains which are being laid as soon as the trenches are dug and then covered by machinery.

MOKENA

While working on the streets Tuesday August Hentsch was seized with a nose bleed. At first he did not pay much attention to it. After two hours he started feeling weak and went home. He fainted soon as he got home. After receiving medical attention he was able to be out again the next day.

Milton Krapp returned from the Wesley hospital in Chicago Wednesday and is doing nicely.

Howard Beagley bought a pony for his son Bobby the first of the week. As he set Bobby on the back of the pony, Bobby fell off, breaking his leg at the ankle. He was taken to Silver Cross hospital and is doing nicely.

Alvin Kohlhasen has been engaged as the new assistant cashier at the Mokena State Bank.

Melvin Kohlhasen is working for the Rock Island Lines in the La Salle St. offices.

Mr. and Mrs. Michael Aschenbrenner celebrated their annual reunion of their family last Sunday at their home. The event being the birthdays of the honored couple.

The home was prettily decorated with spring flowers. Many beautiful gifts were received. It was the first time in eight years that all their twelve children were present, the same coming from Chicago, New

Lenox, Joliet and Mokena. Forty one guests were present including 7 grand children and a few friends. Group pictures were taken and a good time enjoyed by all.

The out of town guests were Geo. Aschenbrenner, Otto Reichel, Mrs. John Laginsky and family of Spring Valley, Mr. and Mrs. John Reichel of Princeton, Ill., Wm. Behrens of Chicago and Mrs. Chris Eich of New York.

Mr. and Mrs. Wm. Krohn and son Wade of Blue Island spent the week end at the home of Mr. and Mrs. Henry Yunker.

Grandma Barenz who has been ill for the past few weeks is holding her own. We hope for her recovery. Miss Elizabeth Rinke and Mrs. Otto Reichel of Springfield, Ill., have been visiting the latter's relatives in Albuquerque, N. M.

Rev. Paul Roesner is attending the Augustana Lutheran Synod in session in St. Louis, Mo., for two week and was present at the dedication of the new \$3,000,000 college.

The Ladies Aid of the M. E. church met Thursday with Mrs. J. V. Hall.

Mr. and Mrs. August Hauck celebrated their 15th wedding anniversary Wednesday night.

There will be no church service in the Mokena Methodist church on Sunday evening, as the pastor, Rev. Glenn T. Beatty, is in Kansas City on his vacation. Sunday school will be held as usual Sunday morning.

The Junior Girl Scouts gave a farewell surprise party on their Scout Leader, Miss L. Darling at her home Wednesday evening. They presented her with a fountain pen.

Miss Darling, Miss Norton and Miss Otto will not return to teach in the Mokena public school next term.

CARD OF THANKS

We wish to extend our heartfelt thanks for sympathy and kindness shown us during our recent bereavement in death of our dearly beloved mother, Mrs. Wm. Becker, also for the many beautiful floral offerings.

Mrs. John Ruthenbeck
Miss Francis Becker

CARD OF THANKS

We wish to express our heartfelt thanks to our friends and neighbors for their kindness in assisting us to clean up the wreckage on our farm following the recent storm.

C. H. Warning and Family.
